FRB Census Geocoder (https://geomap.ffiec.gov/ffiecgeomap)

Search by Address:

- Select year from dropdown, enter address, then select the search option.
    - If current year information is not available, prior year's data is acceptable.
- Select Census Demographic Data.

Example of qualifying census tract (Tract Median Family Income % greater than or equal to 100.00%):

Rental applications: Upload this document

Homeownership applications: Upload MOU indicating census tracts that will be served.

See below for optional 'User Selected Tract' and example of non-qualifying tract.

Search by User Selected Tract:

- Select year from dropdown.
    - If current year information is not available, prior year's data is acceptable.
- Check the User Select Tract option
- Click within the map to retrieve the specific census tract information.
- Once the blue dot appears, select Census Demographic Data.

Example below does not qualify, and documentation is not needed for application purposes.

However, if user selected tract does qualify as shown on example above:

Rental applications: Upload the map

Homeownership applications: Upload MOU indicating census tracts that will be served.
